

cDBInterface::~~cDBInterface

```
graph LR; A[cDBInterface::~~cDBInterface] --> B[cDBInterface::connect]; A --> C[cDBInterface::init];
```

The diagram illustrates a control flow or dependency structure. A central node on the left, labeled 'cDBInterface::~~cDBInterface', is shaded gray and has a black border. Two blue arrows originate from its right side, pointing to two separate white nodes on the right. The top node is labeled 'cDBInterface::connect' and the bottom node is labeled 'cDBInterface::init'. Both nodes on the right have black borders.

cDBInterface::connect

cDBInterface::init
